PETROLEUM INSPECTION STAMPS - These are among the rarest of all Canadian revenue stamps. Issued without gum. They were used on cans of petroleum products. You just don't see them. They are definitely underpriced in my catalogue. Most collections don't have any at all. This listing is my largest ever offering of these very rare stamps. Used stamps are typically faulty. Used copies are rare without faults. Faultless copies command a major premium. Actual stamp size is $\pm 2" \times 8"$. Images are at 45% actual size. Don't wait for better copies, they are not around - this is all I currently have.
