QR4 - 15 2c - \$5 complete. The **2c is the rarity** and this used copy is in spectacular condition with original gum. I believe the half moon punch used to cancel it was some kind of specimen? punch as I have seen this on other stamps also still with original gum.
Very attractive looking set. Priced just for just the cost of the spectacular 2c (QR4 cat value \$275). Set catalog value \$376 - \$229 (±US\$184)

1876 Quebec Insurance Company Receipt from the Equitable Life Assurance Society in New York, USA.

This receipt is very unusual because it shows the payment was made in "GOLD". Payable in gold is occasionally seen on other notes, but not insurance premium receipts.
