Interesting 1917 Search document. Required fee was paid with 4 copies of SL36 - 25c lilac. Typically they would use special forms for this purpose. In this case they used a nice letterhead of the Fairbanks Morse and Company. As per Wikipedia this was an American manufacturing company in the late 19th and early 20th century. Originally a weighing scale manufacturer, it later diversified into pumps, engines, windmills, coffee grinders, farm tractors, feed mills, locomotives and industrial supplies - \$25 (±US\$20)

(±US\$16) This stamp issue was prepared, but apparently never used as they are only known as proofs. The 2c and 3c were issued in sheets of 400 and then cut into panes of 100. Only 1 such block exists per sheet. The sheets were folded when discovered and therefore have a fold in the center. The 3c cutter was joined with tape on the back by the American Bank Note Co. Rather unique pair of proof blocks. These were originally offered at \$695 when they first appeared.
Very unusual - \$395 (±US\$316)
